

ARCHITECTURE SUMMER CAMP IN BULGARIA

Ecological building in the Rhodopa mountain
1st to 21st August 2010

Access

From Plovdiv take the bus to Smolian at the «Rhodopi» bus station (behind the central train station), get off at Naretshenski Bani.

From there you can walk or hitchhike to Kosovo (5km) or call us to pick you up.

Conditions

Experience in ecological building, food and shelter in exchange for work.

8h-working days, 5 days/week, flexible arrival and departure.

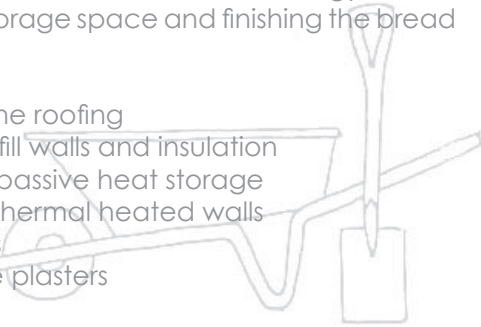

Limited number of participants: Eight beds available.

Please check with us in beforehand if you intend to participate so that we can organize your stay.

Activities

This year's focus will be on starting the transformation of our current barn into a low-energy house, building a new storage space and finishing the bread oven:

- carpentry, stone roofing
- straw-earth in-fill walls and insulation
- earth floor for passive heat storage
- active photo-thermal heated walls
- dry stone walls
- earth and lime plasters

Don't Forget

Bring solid shoes, work clothes, sleeping bag, flash light, towel, your music instrument, your favourite lyrics, good humor
